REPORT of photographic exhibition at the Chicago Public Library:

RIVER ROAD PLANTATIONS – prints of photographs taken in 1941 of Louisiana plantation houses on both sides of the Mississippi between New Orleans and Baton Rouge by Vories Fisher, Chicago photographer. Many changes in the last 20 years have made these photographs of special interest to architectural historians. Anyone interested in having an exhibition of these photographs may write Mr. Fisher at: 5707 South Blackstone Ave., Chicago 37, III. Another interesting show at the Chicago Public Library was of Chicago architecture called "Chicago Between the Fairs."

AWARDS - Richard Krautheimer of NYU Institute of Fine Arts has received an ACLS prize of \$10,000. Donald Robertson, Tulane, received an ACLS Grant-in-aid.

NOTE TO GRADUATE STUDENTS in search of a thesis topic - In Charleston, the Pres. Soc. is hoping to reclaim the Lining House at Broad & King. It is sheathed clapboards and so dated c. 1720. That is after the revocation in 1717 of the Charleston ordinance that no building might be built of wood. Would a compilation of 17th & 18th century building ordinances in North American cities be of help in dating houses?

PLEASANT POSTSCRIPT on Annual Meeting from Russell W. Fridley, Director, Minn. Hist. Soc. "The Minneapolis meeting of the SAH definitely did some good. An historic sites subcommittee of the St. Paul Planning Board has been formed and is hard at work in reaching a rapprochement with the St. Paul Housing and Redevelopment authority on what historic structures should be saved in the two areas slated for redevelopment."
